PROFILE

"I am a passionate and detail-oriented Frontend Developer with experience in creating interactive and visually appealing websites. I specialize in modern web technologies such as HTML, CSS, JavaScript, and React.js, along with expertise in building 3D websites using Three.js and GSAP. Additionally, I have experience in basic Blender 3D animation. I am looking for opportunities in internships, freelancing, or full-time roles to apply my skills and contribute to innovative projects."

PROJECTS & WORK SAMPLES

◆ To-Do App with JavaScript

- Developed a fully functional To-Do App with features to add, remove, and edit tasks.
- Implemented local storage to save tasks even after page refresh.

◆ Tic-Tac-Toe Game (React.js)

- Built an interactive Tic-Tac-Toe game with React.js, featuring game logic.
- Added winning logic and a reset feature for a smooth user experience.

◆ Personal Portfolio (React.js)

- Designed and developed a portfolio website using React.js to showcase projects and skills.
- Implemented smooth animations and a responsive design.
